This means that you are eligible to go on to the Advanced training segment.** Our team would contact you any time after the 31st of March 2021 with details about the training and next steps.

Please be advised that this training does not mean you will receive seed capital as there will be further criteria to qualify for this.

Good Luck as you progress to the next stage.

Welcome on board the TEF Entrepreneurship Program!

Here are general advice as you apply for this year's application.

1. Take this application very seriously. Every component of this application counts up to the pitching stage.
2. If you have the capacity, go ahead and register your business with the Corporate Affairs Commission (CAC) of your country, even if it is a business idea you have.
3. Write a full detailed business plan and a business model canvas for your business or idea; you will need it at the online training stage.
4. Go and start the business; don't let it remain an idea before the pitching. You need to have meaningful traction, even for a new idea.
5. Have your social media links ready and ensure you post meaningful things that relate to your business on the platform.
6. Get all the mentoring you can get along the way.
7. Apply with an idea that you have experience because it will be obvious that you have no idea of the business during pitching.

Mentorship

My team will be mentoring very few and serious people that will like to apply for this grant and follow-through the process to the pitching stage.

The year 2021 is a great year the Lord has made. He has granted us the opportunity to be among the living. It is only the living that can praise the Lord.

So, in your own way, praise your maker. The one that has not said time up for you!

Today's focus is on how to make 2021 your best year ever.

Before we continue, how was your year 2020?

I know it is a year that was characterized by a lot of bad occurrences like the Covid-19, Lockdown, EndSars, Recession, etc. But for you personally, how has it been. Did you allow the lockdown to lockdown your destiny, or you allowed it to bring out the best in you?

From our end, we developed our bestselling product currently during the lockdown. So, I can categorically say the lockdown worked for our good. If the year 2020 has affected you badly, then 2021 will definitely be different. And that is why I am sharing with you now.

My first point of discussion is about your desire.

What do you desire?

What do you see yourself achieving in this new year, all things being equal?

Take a sheet of paper now and take 10 mins to answer this question.

1. Write out your top ten desires for 2021

- That can make 2021 the greatest year.
- That defines a super successful year.
- That represents total transformation.
- That could place you among the top ten in your field, family, or place of work.
- It could be a position, money, accomplishment, spirituality, trip to a distant land, marriage, etc.
- It could be health-related, new business, educational, charity cause, relationship, etc.

1. Out of this top 10, tick the top 5, then pick just one most important Goal. It is called the Umbrella Goal. In such a way that accomplishing that one makes the other 9 easier.
2. Create images depicting your umbrella goals, and write why of the goals and how it feels like when you achieve the goal.
3. Create a vision board: It is putting your desires in the picture form and collate them and position them where you can see them. Click [here to learn how to create a vision board](#). Or Check here to learn how to create a [digital Vision Board](#).
4. Write out affirmations, confessions, and declarations and use them daily.
5. Make a list of 300 desires. Add more as you read, walk, interact, and dwell more on your desires.
6. Work hard on yourself and keep at your goals and upgrade your goals.

Note that all the above strategies were extracted from my Billionaire Mentor, Dr. Abib Olamitoye, mentoring Session at 100/10 Academy.

Watch [his presentation on how to build wealth](#) at the Youth Empowerment Summit 2020, organized by Dayo Adetiloye Empowerment and Development Initiative (DAEDI).

What to Invest on, to Have a Wonderful and Impactful Year 2021.

1. **Digital Knowledge Infrastructure**
 1. Get a functioning internet-enabled phone and a good laptop.
 2. Get access to monthly unlimited internet access.

The above two are the bedrock to new economy accessibility. For young people between 18-40 years, you must learn how to make money online by selling products and services, and I will be making some recommendations very soon. If you are unemployed or you are self-employed or just lost your job, please take all the recommendations seriously.

Most information that will transform your life this year will be in Video format. Some people use to tell me they don't have enough data to watch them. That mindset has to change in 2021.

Importance of Digital Knowledge Infrastructure

The difference between the person you are now and the person you will become by the end of 2021 is the knowledge you have. There are mechanical engineering graduates that cannot bring down the engine of a car and fix it back. Having requisite skill in your field or anything you want to do is of utmost importance.

I will continue the recommendation of the field and the requisite knowledge you need to get.
